

REMARKS

The present application stands with claims 1-12 allowed. Claims 13-15 have been rejected under 35 U.S.C. §101 as being non-statutory. Although allowed, claims 1, 5 and 8 have been amended to delete parenthetical reference symbols. Claim 11 has been amended to insert a missing period. Rejected claim 13 has been cancelled and replaced with new claim 16 and the claims dependent on claim 13 have been amended to be dependent on claim 16. Claim 16 claims a mobile telecommunications data packet having a structure as defined by the claim. Such a data packet is a physical reality that can be detected by technical means and is not merely an abstract entity. Since claim 16 relates to a tangible invention, it should not be rejected under 35 U.S.C. §101 as being non-statutory and should be allowable. The claims dependent on new claim 16 should therefore also be allowable.

In view of the foregoing, allowance of all the claims presently in the application and passage to issue of the subject application is respectfully requested. If the Examiner should feel that the application is not yet in a condition for allowance and that a telephone interview would be useful, he is

invited to contact applicants' undersigned attorney at 973, 386-8252.

Respectfully submitted,
